

GR CUP TEAM TIRE USAGE GUIDELINES

Revision 2 5/19/2023

Continental is honored to be the official tire supplier for the GR CUP!

We would like to take the opportunity to communicate guidelines for tire procurement throughout the year's series.

"The best way to solve problems is to prevent them!" Your understanding of the following content will be mutually beneficial.

Purchasing Tires:

- Each team must purchase, from the onsite Continental Tire Service Transporter at each venue, a minimum of 2 sets to be used on each entered GR Cup car in official competition sessions.
- **Official competition sessions** are defined as Q1, Race 1, Q2 and Race 2.
- All the tires used in official competition sessions, Q1, Race 1, Q2, and Race 2, must be requested as tires to be used for that purpose at the time they are presented for fitment at the trackside service operation.
- A 3rd set may be purchased for use during official practice sessions. Three sets are the limit permitted to be purchased per car, per Event.
- Test Sessions are not included in the Event per the series Sporting Regulations.

Scrap/Saving Tires:

At any time that you present mounted new or used units to track service, you will be asked if you want the dismantled tires **scrapped** or **saved**.

- If you want your dismantles **scrapped**, you will be charged a \$5.00 per tire disposal fee.
- If you want your dismantles **saved**, they will be set aside in a designated area with your car number written on the tread and must be picked up before the last day of the Event.

Scanning Tires:

- Before the team can pick up their designated competition tires, the bar codes will be scanned into a database, by car number.
- The "scanned to car number database" will be shared with SRO Tech.
- You will be required to use scanned tires throughout Q1, Race1, Q2, and Race 2 for that car number, at that venue, and SRO Tech will have the ability and authority to scan your tires randomly during the Event to assure compliance.

- **If you are a multiple-car team, tires are scanned by car number and cannot be interchanged with another car number.**
- Any tires scanned at any venue during the season will only be eligible for that Event.
- Any tires scanned at any venue on the schedule are void from competition eligibility in ensuing Events.
- Any tires, new or used, scanned or otherwise, left over in your tire inventory from any venue become eligible for practice tires only.

Thank you for being a part of this exciting new series. Continental, as an Official Partner and Tire Supplier, is very excited about the anticipated success of the GR Cup. Along with TRD, other official partners, and all the teams involved, we are committed to doing our part as the most premier tire supplier you have encountered! If you ever have any questions or concerns, feel free to communicate.
